White Label Website Concept

Online Corporate Gifting Store for Corporate Companies

by: Promotion Connects

Brief Introduction

We are planning to launch online corporate gifting store for corporate companies. After years of experience in corporate gifting industry we found very common and big problem that is short listing of product & right vender. Our main focus behind the idea is to provide hustle free services to choose right product for your need in short period of time.
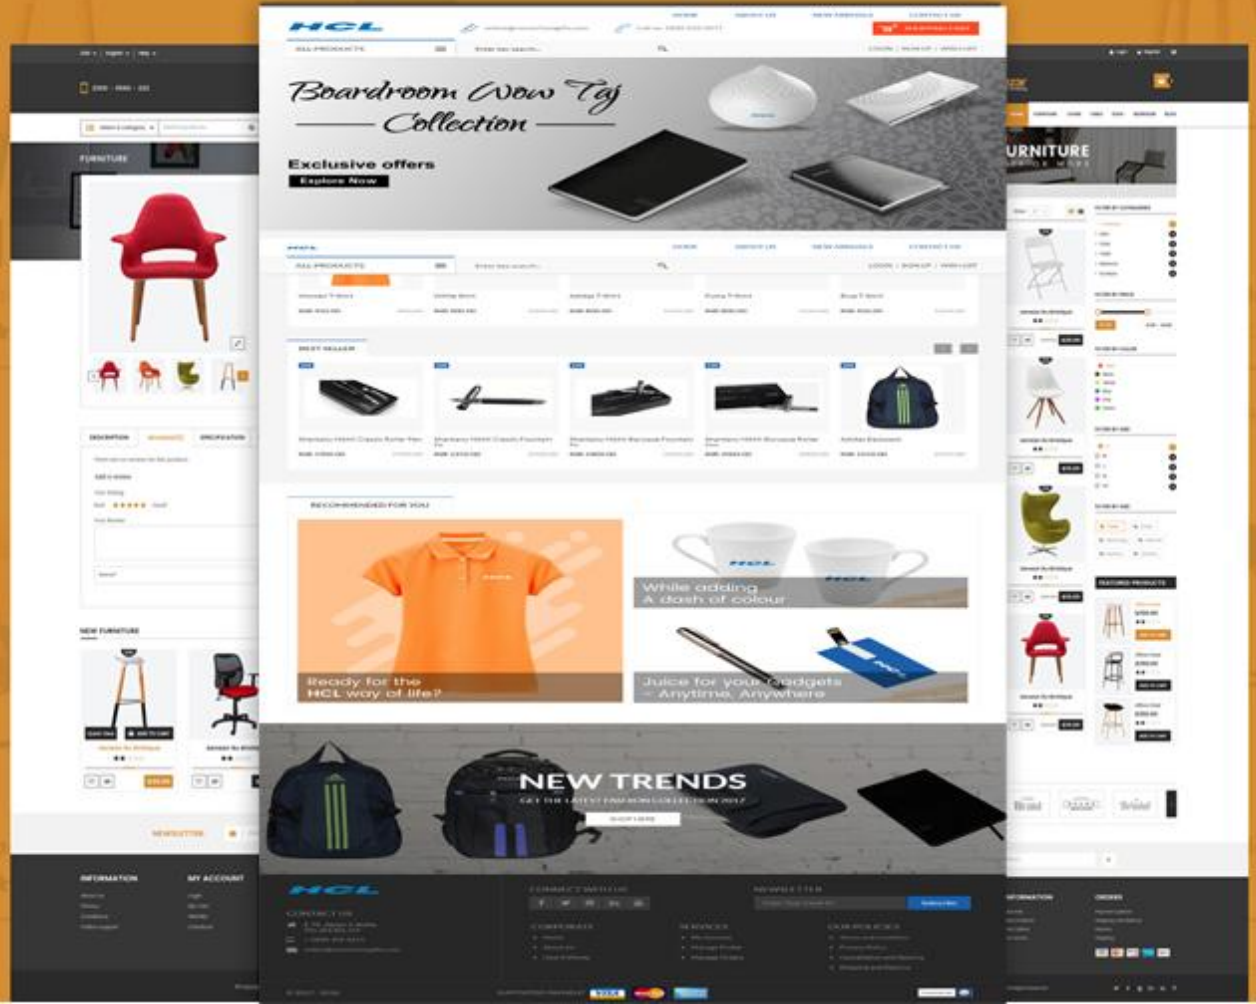

Your Brand Store

www.shop.company.com

Where your any team member can buy your
selected products with your company branding.

You can choose website design from more then 10 pre designed website templates according to your requirement.

"We belive wasting time is always equals to wasting money. Our concept can make little help in your organization to grow as part of your company.
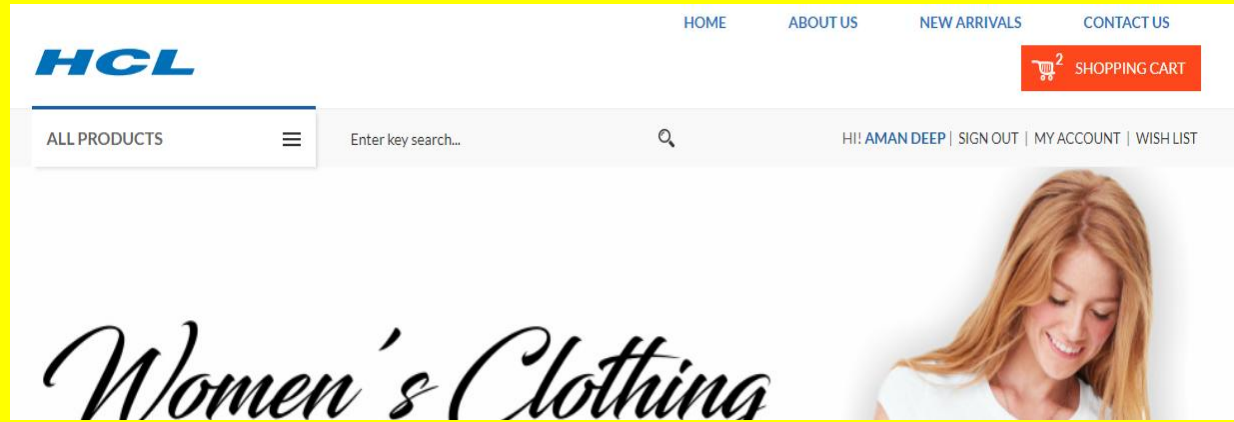

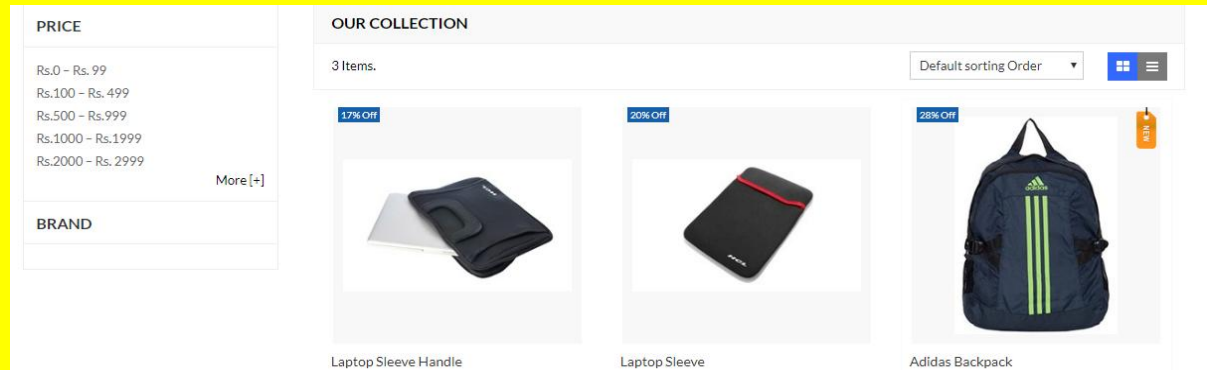

How it works?

1. Our one of the team member will take an appointment with you to get information about your regular requirements.

2. After getting knowledge of your requirements. Our creative team will work on your products branding.

3. Once the branding on your selected products done we will setup an basic website demo of your online store.

4. Whenever we will receive confirmation to launch the website on server. We will make your website live.

5. Our admin team will send your online store website credentials to make changes if required.

6. This online store can be use to shop for any individual or Only for your company employees depends on the access level provided by promotion connects.

7. This online store will be completely free for first year.

8. We will provide you vouchers as per your requirements and end user can redeem that voucher at the time of billing on your website.
